1-7333-10	10.0mm	40FR	330mm	10

The cuffed tubes are manufactured with a large barrel type cuff to increase surface contact for a gentle seal during tracheal expansion and contraction. All endotracheal tubes have a smooth Murphy Eye to provide an alternate ventilation port if tube tip becomes occluded.

- For Oral and Nasal Use
- Available Cuffed or Un-Cuffed
- Most Economical - Sterile & Disposable
- Radio Opaque Strip Embedded
- Smooth Tube Tip to Minimize Trauma During Intubation
- High Volume, Low Pressure Cuff
- Standard 15mm ISO Connector Supplied with Each Tube
- Latex Free - Tubes are Constructed of Clear, Flexible PVC
- Bold, Easy-to-read Depth Marks for Placement in Low Light Conditions
- Valve with Sensitive Pilot Balloon Indicating Status of Cuff

Endotracheal Tubes With Stylets

CAT#	I.D.	FRENCH	LENGTH	BOX
1-7343-50	5.0mm	20FR	245mm	10
1-7343-55	5.5mm	22FR	275mm	10
1-7343-60	6.0mm	24FR	285mm	10
1-7343-65	6.5mm	26FR	295mm	10
1-7343-70	7.0mm	28FR	310mm	10
1-7343-75	7.5mm	30FR	315mm	10
1-7343-80	8.0mm	32FR	330mm	10
1-7343-85	8.5mm	34FR	330mm	10
1-7343-90	9.0mm	36FR	330mm	10

ENDOTRACHEAL TUBES WITH STYLETS

- Convenient - Tube Supplied with Stylet Inside
- Surface of Stylet Treated to Prevent Friction While Sliding In and Out of Tube
- Most Economical - Sterile, Disposable & Latex Free
- Radio Opaque Strip Embedded
- Smooth Tube Tip to Minimize Trauma During Intubation
- High Volume, Low Pressure Cuff

CUFF INFLATION BULB

- Quickly Inflates and Deflates Endotracheal Tube Cuffs
- Safe - No Syringes
- Latex Free
- Fits Easily In Pocket - One Hand Operation

CAT#	DESCRIPTION	BOX
4-0101-00	Cuff Inflation Bulb (bulb only)	10

Also Inflates and Deflates Mask Cushions

Airways

Tracheostomy Tubes

- Obturator and Tube Clearly Marked
- 15mm Connector Swivel Adapter
- Securely Attached Neck Band Retainer
- X-ray Opaque
- Low Pressure Cuff
- Comfortable Cushion Neck Band
- Made of Soft PVC
- Latex Free - Single Use
- Sterile
